Seminar 8 (Week 8)

Q1. Please perform the following activities using ARX in group:

I. Please see the demo of the ARX to tool and learn the use of the tool. Please take the help of the Lecturer or the Tutor.

II. Please use the SalaryData.csv dataset to reduce the re-identification risk.

III. Please apply both k-anonymity and differential privacy to reduce the re-identification risk. In addition try to create the following table.

K-anonymity	Information Score	Differential Privacy	Information Score
Value 1		Value 1	
Value 2		Value 2	
---------		---------	
Value N		Value N
